

# ZHENG HE'ZHU

A place where Chinese provenance transcends time and innovative mixology and contemporary Far Eastern cuisine come together.

The culinary concept of the restaurant is inspired by the well-known explorer Zheng He and his passion for discovering new lands and civilizations.

As a daring and brave Admiral, Zheng He lead his fleet of ships across oceans to reach Asia and East Africa during 1405 to 1433, in search of new lands, cultures, riches and discoveries.

During his travels, he would present gifts of gold, silver, porcelain, and silk to Emperors he'd meet – and was known to attain his goals through charm and diplomacy as a natural negotiator, untroubled when facing threat or violence.

To celebrate his daring and passionate approach to life, we have created a culinary experience that crosses boundaries in a truly breathtaking setting.
